

Plan of the day for 13 June 2013

Submitted by wpetersen on Thu, 06/13/2013 - 12:28

Date:

Thursday, June 13, 2013 - 12:15

Discussion:

Ok- so I'm behind..... Instruments all up basically (SN25 slight issue). NPOL/D3R Will attempt sphere cal this afternoon (though Francesc is delayed). If not successful, will attempt another tomorrow morning. D3R move to parking lot tomorrow morning probably. Clear WX so, run NPOL in reduced mode, D3R and XPOLs in standby as needed.
